**Maths classes:**

Sometimes the way maths is done now can be different to when we were in school, if you would like to help with your child's maths homework then we are here to help, we will run a four-week course that will run through how maths is taught in school and what you can do to help. This will be a hands-on course with practical tips and ideas and you will also get to take part in different maths games that you can use with your child at home. A day and a time has yet to be confirmed but if this is something you have interest in please let me know.

**Christmas cookery:**

Due to the success of our cookery class last year we will do a four-week cookery demonstration course this year on some simple Christmas recipes, again I am waiting on confirmation of a venue, dates and times but if you would like to express your interest please let me know as places will be limited.
